

ADEBANJO MICHAEL

FULL-STACK DEVELOPER

Lagos, Nigeria | +234 808 467 7822 | adebanjom16@gmail.com | github.com/riskycoded

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with over 3 years of hands-on experience designing, building, and deploying responsive, accessible, and fast web applications. Highly proficient in the React ecosystem (Vite, Next.js), TypeScript, Node.js, and modern CSS frameworks. Experienced in integrating payment gateways, email delivery systems, and optimizing MongoDB and PostgreSQL database queries for maximum performance.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS, JavaScript (ES6+), Framer Motion, HTML5, CSS3

Backend & Database: Node.js, Express, RESTful APIs, MongoDB, PostgreSQL, Prisma, MVC Architecture

Tools & Operations: Git, GitHub, Docker, Stripe, Resend API, Vercel, Render, Postman, JWT Authentication

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Malhub (Ilorin, Nigeria)

2025 — Present

- Architect and build high-performance web applications using React, TypeScript, Node.js, and Express.
- Optimize database query speeds for MongoDB, implementing in-memory caching solutions that reduced latency to under 2ms.
- Translate Figma designs into responsive, production-ready interfaces with pixel-perfect accuracy.
- Integrate Resend SDK for transactional client emails and Stripe for secure online payment workflows.

Freelance Full-Stack Developer | Self-Employed

2022 — Present

- Successfully delivered 10+ custom web solutions for global clients, focusing on conversion rates and SEO.
- Constructed highly performant layouts utilizing Next.js, achieving average Google Lighthouse scores of 95+.
- Configured production environments on Vercel and Render with fully automated CI/CD pipelines.

Digital Marketing Specialist | Freelance

2023 — Present

- Designed high-converting landing pages focused on user conversion and custom analytics logging.
- Successfully connected marketing analytics tracking hooks straight into custom dashboard database frameworks.

FEATURED PROJECTS

Jeropath International (React, Node.js, PostgreSQL, Stripe)

Developed a comprehensive study abroad consultancy web platform enabling prospective students to view course packages, book consultation slots, and track application flows.

Team Task Manager (Next.js, TypeScript, Tailwind CSS)

Built a modern collaborative task dashboard incorporating real-time updates, kanban boards, messaging hubs, and customized calendar planning tools.
